

and protect those facilities and items of equipment needed for reuse in an economical manner that facilitates installation redevelopment.

(b) In order to ensure quick reuse, the Secretary concerned, in consultation with the LRA, will establish initial levels of maintenance and repair needed to aid redevelopment and to protect the property for the time periods set forth in paragraph (c) of this section. Where agreement between the Secretary and the LRA cannot be reached, the Secretary will determine the required levels of maintenance and repair and its duration. In no case will these initial levels of maintenance:

(1) Exceed the standard of maintenance and repair in effect on the date of approval of closure or realignment;

(2) Be less than maintenance and repair required to be consistent with Federal Government standards for excess and surplus properties as provided in the Federal Management Regulations of the GSA, 41 CFR part 102;

(3) Be less than the minimum levels required to support the use of such facilities or equipment for nonmilitary purposes; or,

(4) Require any property improvements, including construction, alteration, or demolition, except when the demolition is required for health, safety, or environmental purposes, or is economically justified in lieu of continued maintenance expenditures.

(c) Unless the Secretary concerned determines that it is in the national security interest of the United States, the levels of maintenance and repair specified in paragraph (b) of this section shall not be changed until the earlier of:

(1) One week after the Secretary concerned receives the redevelopment plan;

(2) The date notified by the LRA that there will be no redevelopment plan;

(3) 24 months after the date of approval of the closure or realignment of the installation; or

(4) 90 days before the date of the closure or realignment of the installation.

(d) The Secretary concerned may extend the time period for the initial levels of maintenance and repair for property still under the Secretary's control for an additional period, if the Sec-

retary determines that the LRA is actively implementing its redevelopment plan, and such levels of maintenance are justified.

(e) Once the time period for the initial or extended levels of maintenance and repair expires, the Secretary concerned will reduce the levels of maintenance and repair to levels consistent with Federal Government standards for excess and surplus properties as provided in the Federal Management Regulations of the GSA, except in the case of facilities still being used to perform a DoD mission.

Subpart G—Environmental Matters

§ 174.15 Indemnification under Section 330 of the National Defense Authorization Act for Fiscal Year 1993.

Section 330 of the National Defense Authorization Act for Fiscal Year 1993, Pub. L. 102-484, as amended, provides for indemnification of transferees of closing Department of Defense properties under circumstances specified in that statute. The authority to implement this provision of law has been delegated by the Secretary of Defense to the General Counsel of the Department of Defense; therefore, this provision of law shall only be referred to or recited in any deed, sales agreement, bill of sale, lease, license, easement, right-of-way, or transfer document for real or personal property after obtaining the written concurrence of the Deputy General Counsel (Environment and Installations), Office of the General Counsel, Department of Defense.

§ 174.16 Real property containing explosive or chemical agent hazards.

The DoD Component controlling real property known to contain or suspected of containing explosive or chemical agent hazards from past DoD military munitions-related or chemical warfare-related activities shall, prior to transfer of the property out of Department of Defense control, obtain the DoD Explosives Safety Board's approval of measures planned to ensure protectiveness from such hazards, in accordance with DoD Directive 6055.9E, *Explosives Safety Management and the DoD Explosives Safety Board*.
